Wire Journal International 1992 article index

The following is a listing of all technical articles, features and editorials in calendar 1992. Companies may arrange for reprints by contacting Wire Association International headquarters.

Archival

"The wire gauge," Donald Sayenga, September 1992, p. 123.

Coating and jacketing

"Substituting cadmium pigments with heavy metal-free pigments in engineering resins," Harnish S. Jani, February 1992, p. 89.

"Inkjet moves on—becomes more user friendly and environmentally conscious," David J. Gemelli and Rick Mitchell, May 1992, p. 57.

Company profiles

"Keeping it in the family," Victor Bonini and Joseph Offredi, December 1992, p. 38.

Editorial

"No need for confusion," Joseph H. Ring Jr., January 1992, p. 4.

"Dear readers, R.S.V.P.," Victor Bonini, February 1992, p. 4.

"Bigger, newer, faster," Victor Bonini, March 1992, p. 4.

"Brazil update...," Victor Bonini, April 1992, p. 4.

"Thinking about that key word," Joseph Offredi, May 1992, p. 4.

"Roses are red, violets are blue...," Victor Bonini, June 1992, p. 4.

"One entrance, one ticket, one show...," Victor Bonini, July 1992, p. 4.

"On the nature of information...," Victor Bonini, August 1992, p. 4.

"Magazine evolution...," Victor Bonini, October 1992, p. 4.

"On prose and pros," Joseph Offredi, November 1992, p. 4.

"Other people's equipment," Victor Bonini, December 1992, p. 4.

Electrical

"Plenum cable for the 90s—new concerns for new demands," Richard J. Rockosi, November 1992, p. 63.

End Use

"Slinky: turning wire into smiles," Victor Bonini, January 1992, p. 86.

"Getting bent about wire," Joseph Offredi, February 1992, p. 114.

"A desire named streetcar," Victor Bonini, March 1992, p. 80.

"Back then we'd send a wire...," Joseph Offredi, April 1992, p. 86.

"When wire meets wood: a grand combination," Victor Bonini, May 1992, p. 80.

"Have you seen the light?," Joseph Offredi, June 1992, p. 90.

"Space wire," Victor Bonini, July 1992, p. 88.

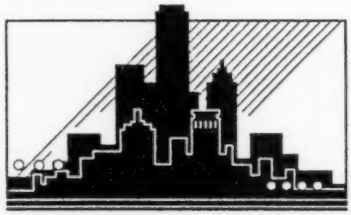
"The winds of wire," Joseph Offredi, August 1992, p. 80.

"Two wheels, a bell and 72 spokes," Victor Bonini, September 1992, p. 167.

"The little wire in charge," Joseph Offredi, October 1992, p. 94.

"Pray, read about this special wire," November 1992, p. 90.

"Basket d'art," December 1992, p. 86.



Environmental

"Balancing industry and the environment," Victor Bonini and Joseph Offredi, April 1992, p. 38.

"Water removal from Loopro line by vacuum extraction," Gary Jerger and Kent Watkins, August 1992, p. 66.

"Environmental case study to reduce disposal costs for copper wiredrawing compounds," Alynn Rodeen and Michael Fedrigon, November 1992, p. 77.

Exhibition/Convention Preview

"Wire Expo 92," Joseph Offredi, September 1992, p. 40.

Fasteners

"Delayed failure of steels for high strength bolts," Toyofumi Hasegawa, Takeshi Nakahara, Yoshiro Yamada and Morifumi Nakamura, August 1992, p. 49.

"Microalloyed bainitic steels for 10.9 strength class fasteners," Francisco Boratto, Ricardo Macedo dos Santos and Paulo R. Cetlin, September 1992, p. 129.

Ferrous

"Strengthening mechanism of cold drawing deformation of a steel 1020 dual-phase wire," Xiaomin Wang, Liying Yang, Dezhuang Yang and Tingchuan Lei, January 1992, p. 53.

"Development of a low carbon steel wire rod through continuous casting and controlled cooling after rolling," Ricardo Macedo dos Santos, Delmar Barros Ribeiro and Ricardo Castilho de Avellar, January 1992, p. 65.

"Valve spring wire with extra-low oxygen and with shaved surface—a real need," José Augusto Claudiano Rosa, Eduardo J.B.V. Barcelos, Miguel Luis Costa, Mário Ossamu Hayakawa, and José Carlos Cé, April 1992, p. 59.

"Experimental design of billet surface quality," Gregory L. Dressel, May 1992, p. 45.

"Dual-phase steels for non-heat treated high tensile bolts," Gilles Pierson, June 1992, p. 53.

"Development of automatic finishing line (AFL) for wire rods," Masahiro Oikawa, Katsunori Nashimoto, Mitsuo Yoshida and Takayuki Ueda, June 1992, p. 75.

"Development of magnetic scaling rod with laser beam," Takashi Tsukamoto, Motoh Asakawa, Chuzo Sudo and Masashi Kouso, September 1992, p. 143.

"Improvement of steel wire for cold heading," J. Dhers, B. Thivard and A. Genta, October 1992, p. 73.

"Advance of valve spring steel," Jun Kawahara, Koji Tanabe, Toshio Banno and Masashi Yoshida, November 1992, p. 55.

"The effects of manganese content on the mechanical properties of drawn pearlitic steel wires," Fernando Gabriel S. Araujo, Berenice M. Gonzalez, Paulo R. Cetlin, Alvaro R.Z. Coelho and Ronaldo A. Mansur, December 1992, p. 57.

Fiber optics

"Torsion tube package SZ-stranding method for fiber optic cables," Markku Ruhanen, March 1992, p. 59.

"The equipment and cables used in the optical fiber network at Bankverket, Sweden," Karin Nygård Skalman, Elvind Siönäs, Göran Danielsson and Sune Edman, September 1992, p. 149.

"Fiber optics: attributes and applications," Joseph Offredi and Victor Bon-Bonini, October 1992, p. 36.

"The equipment and cables used in the optical fiber network at Bankverket, Sweden," Karin Nygård Skalman, Elvind Siönäs, Göran Danielsson and Sune Edman, September 1992, p. 149.

"Fiber optics: attributes and applications," Joseph Offredi and Victor Bon-Bonini, October 1992, p. 36.

"Characterization of alternate resins for fiber optic loose tubes," Lorene Baccaro, Richard Black and Linda Nelson, October 1992, p. 59.

"The critical role of the steel wire industry in transoceanic fiber optic communications systems," Kerry D. Briggs, October 1992, p. 67.

"High performance optical fiber ribbon by UV-curing method," Frank Greco and Attilio Ragni, December 1992, p. 63.

General

"New technology without compromise," Thomas C. Renner, January 1992, p. 59.

"Free rotation carrier for wire braiding," S. Arden DeYoung, April 1992, p. 67.

Industry News

"Siemens Energy negotiating purchase of Reliance Electric," January 1992, p. 14.

"Teledyne Allvac starts up bar and rolling mill," January 1992, p. 14.

"Gitto names Lasorda as board member," January 1992, p. 15.

"Wire Rope buys Oklahoma City facility," January 1992, p. 15.

"Ceeco conducts in-plant demonstration," January 1992, p. 15.

"Omega's restart plans stir controversy," January 1992, p. 15.

"Alcatel agrees to buy AEG Kabel," January 1992, p. 16.

"Fiber optic equipment to be manufactured in India," January 1992, p. 16.

"SKET ventures into North American market," January 1992, p. 16.

"Soviets face possible short steel supply," January 1992, p. 19.

"Welding societies reach tech-sharing agreements," January 1992, p. 19.

"SBI celebrates opening," January 1992, p. 19.

"Brazil's privatization plan hits a few snags," January 1992, p. 19.

"Cooperation East-West to launch in Hannover," January 1992, p. 20.

"BICC Cables receives two contracts totalling $154 million," January 1992, p. 20.

"Falling steel prices may cause shutdowns," January 1992, p. 20.

"Nucor Corp. poised to enter wire market," January 1992, p. 22.

"Nelson Steel & Wire shuts down production," January 1992, p. 22.

"Gary Corp. plans next phase of expansion," January 1992, p. 22.

➡

"Reliance Electric will remain independent," February 1992, p. 14.

"Seymour Specialty Wire employees weigh offers," February 1992, p. 14.

"Trade friction possible on the EC horizon," February 1992, p. 15.

"Bethlehem facing 'congressional' pressure," February 1992, p. 15.

"Zumbach to hold two one-day seminars," February 1992, p. 15.

"Sumitomo Fiber Optic cops DOD award," February 1992, p. 15.

"WISA offers special Wire 92 travel package," February 1992, p. 16.

"Decision to consolidate finalized by Rockbestos," February 1992, p. 16.

"Zapla to go private," February 1992, p. 16.

"Fund established to offset medical costs of Michael Arnone Jr.," February 1992, p. 19.

"Publisher facilitates American, Romanian business," February 1992, p. 20.

"Algonquin Industries considers enlarging plant or moving to new site," February 1992, p. 20.

"Cargill to offer ESOP," February 1992, p. 20.

"New England Wire & Cable Club names Charles D. Scott Award winners," February 1992, p. 23.

"Yacht racers to use innovative steel wire," February 1992, p. 23.

"Charter Steel named Q-1 by Ford Motor Co.," February 1992, p. 24.

"Simplex set to manufacture TAT-10," February 1992, p. 24.

"Mandatory standards subject of TIA seminar," February 1992, p. 24.

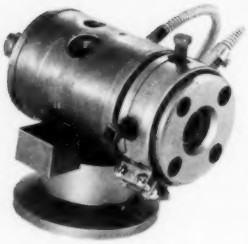
BALANCED FLOW CROSSHEADS

by GUILL TOOL



GUILL TOOL has made a ***major breakthrough*** in crosshead design. A crosshead that flows evenly with no turbulence, no dead spots, that maintains center at all speeds. This opens the door to a simple standard design at low cost with great flexibility to give you all the following:

- Fixed Center
- Adjustable Center
- Volume Adjustment
- Gel-Filled Adapter
- Co-Extrusion
- Skin Coating
- Striping
- Coming Next - Triple Extrusion
- Balanced Flow
- Standardization
- Flexibility
- Affordability

One Head Does It All

A complete line of tooling for all crossheads.

Celebrating our 30th year

BRAIDERS FOR SALE

Textile Machine Works: 24, 32, 36, 48 and 64 carrier machines, for wire or textile, sizes from 7/16 track plate by 5" horn gears, to 1" track plate by 9" horn gears.

New England Butt: 24, 36, 48 and 64 carrier machines, model CB-1, for wire or textile, single or double thick track plates.

New England Butt model #1's and #2's, single or double thick track plates, in most standard carrier number sizes, available as free standing or bench units.

Many new braider parts available–please contact us with your requirements
